

# Electronic Design and Manufacturing

Custom Test Equipment • Industrial Controls  
Remote Controls • Sensors  
Digital, Analog, Microprocessor Product Design  
High Speed Digital Data

## Design

---

Concept Design  
Specifications  
Firmware  
Product Cost Analysis  
Circuit Design  
Breadboarding & Prototyping  
Printed Circuit Board Design  
Manuals  
Follow-up Support  
Test Fixtures

## Manufacturing

---

Production Documentation  
Printed Circuit Board Assembly  
Cable Assembly & Testing  
Wire Harness Assembly  
Board and Cable Repair  
Purchasing  
Qualified Soldering  
Surface Mount  
Inspection  
Short Run Production

Reverse engineering • Modernize old design • Invention reduction to practice

## Building Ideas for Over 25 Years

Call and tell us about your project 951-735-1761

*"Profit from good design"*
